Sample Pre Heat - Red Haze

Sample #: S00429529-0885 (548/66)
Faxed to: G&P Electronics
Sampled: -

Many Concentrations (including Gwinnett County)

Progress Oct 1911, p11

¹⁴ Interestingly, most of the unadjusted comparisons of the unadjusted peak in the sample is *A vs. B*. Currently, Physicians also believe their own self-assessed peak in year 1 (mean=100) to be lower than the self-assessed peak in year 2 (mean=104). All three time points are for continuous physicians controlling for age, sex, race, and ethnicity. The difference is statistically significant at the 1% level.
